

RAMUC®

Type A Chlorinated Rubber Pool Paint

For upgrading and restoring previously painted
chlorinated rubber surfaces

Type A premium chlorinated rubber coating is formulated to provide excellent hiding, coverage, and protection. It restores and upgrades previously painted chlorinated rubber surfaces and has been the paint choice of swimming pool professionals for more than 70 years.

Used in the industry for decades to restore and protect plaster and concrete pool surfaces. Excellent choice for recoating previously painted chlorinated rubber surfaces. It is formulated to provide excellent hiding and superior coverage rates compared to other chlorinated rubber paints.

- Superior coverage rate compared to other chlorinated rubber paints
- For upgrading and restoring previously painted chlorinated rubber surfaces
- High gloss finish allows for easy cleaning
- Easy to apply by roller or airless spray
- Self-priming
- Two-coat system
- Up to 5 years service life
- Use SKID-TEX Additive to achieve a non-slip surface
- For use in NON-VOC restricted areas of the U.S.
